

UMA

Pablo Designs® | Carmine Deganello and Pablo Pardo | 2015

The UMA audio lantern is designed for effortless portability indoors and out. Enjoy warm LED lighting and 360-degree high-fidelity surround sound at the office, in a collaboration area, conference room or social space. Control music selection and volume via Bluetooth from any mobile device. Every lantern includes both a tan and a grey leather strap and a premium cotton travel bag for additional protection.
