

Ergonomic seating at an affordable price.

- Back flex
- Exceptional comfort
- Elegant design

Torsion® Chair Collection

What makes Torsion KI's most popular seating collection?

From healthcare to education to business, the Torsion collection, designed by Giancarlo Piretti, offers superior comfort via flex back at a modest price. This collection of stack chairs, task chairs, task stools, and tandem seating provides design continuity in any environment. Backed by KI's Ten-Year Warranty, Torsion seating is available in a wide range of fabric choices to complement any setting, including KI fabric, vinyl, Pallas® Textiles and C.O.M. For adaptation to hard-use environments, polypropylene seats and backrests are also available.

Stackable Convenience. Lasting Comfort.

A stackable chair with a flex back, perfect for relaxing during long meetings or lectures.

Be Versatile. Fold Away the Tablet Arm.

When the tablet arm is not needed, just fold it away to create a general use guest chair. Offered in the full sled-base and straight four-leg base, the Torsion chair with fold-away tablet is a perfect option for any educational setting. (Does not stack with fold away tablet.)

Torsion Stack

No one expects a stack chair to flex. Torsion stack chairs provide the comfort of passive ergonomics at a price comparable to fixed-back stack chairs. Perfect for any application, Torsion stack is available in three frame styles – full sled base, cantilevered sled base and straight four-leg. This versatile chair is available in armless or armchair versions. Two types of tablet arms (one of which folds down and to the side) are available with the full sled base and straight four-leg frame. Torsion stack chairs are also Greenguard Certified.

Torsion Task

Need a highly mobile, lightweight task chair with remarkable comfort at a reasonable price? Torsion task chair is an ideal solution for those seeking a task chair that is adaptable to any environment and simple to use. Available in arm or armless versions, poly or upholstered, the Torsion task chair is ideal for teaming or collaborative settings.

Torsion Stool

Experience outstanding comfort with the flex back that moves as you move. The Torsion stool is easy to use and easy to maintain. Available in two seat-height options, the Torsion stool is an optimal choice for education and healthcare applications. Equipped with a chrome-plated, adjustable footring, the stool is available with optional fixed height arms.

Torsion Tandem

Comfortable and attractive, Torsion tandem is the perfect choice for high traffic waiting areas. Supplying peace of mind for maintenance crews, Torsion tandem is easy to install and easy to clean. Available in armless or arm versions, tandem seating provides superior comfort with an articulating chair at a moderate price. The clean, elegant Torsion tandem seating is also Greenguard Certified.

Comfortable Price. Attractive Design.

With Torsion Tandem, your waiting room will be both relaxing and attractive. The beam-mounted tandem unit creates high comfort at a moderate price.

**You make the rules.
We make the rest.®**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what you need. And, we make it. The same applies to our service, distribution channels ... everything we do. It's all built around knowing what you want and giving you the choice. KI solutions work, because we're working for you.
