Perth® Lounge Sleeper

Perth Lounge Sleepers are first in their class with a patented welded structural steel inner mechanism that provides strength and stability. Their solid hardwood arms add warmth, while the catalyzed finish maintains its beauty.

Perth Lounge Sleepers also offer field-replaceable seat and back cushions, as well as convenient under-seat storage. The pull handle comes standard in black, but is also available in sand, warm grey or desert beige. Whether you choose the lounge or loveseat design, optional moisture barriers are available to help protect the fabric and ensure a long product life.

Easy to use, the Perth Lounge Sleeper provides numerous configurations for quick adjustments. With so many options for mobility, storage and arrangement, the Perth Lounge Sleeper is the perfect choice for any healthcare environment.

Optional casters on the Perth Lounge Sleeper allow movement across a room or down the hall. The front wheels stay fixed while the locking rear wheels rotate 360 degrees.

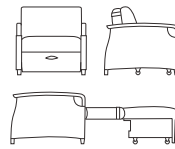

Perth Lounge Sleepers also provide space-saving storage under the seat. Simply lift the seat to store bedding, overnight bags or personal items.

Simple pictorial instructions and pull strap guide the closing process, allowing guests to easily convert the sleeper to a loveseat or lounge chair.
