

Active Components™

Worksurfaces

PRODUCT SHEET

HAWORTH®

Bring organization and personalization to the workspace, while supporting diverse workstyles. Active Components worksurfaces are ideal for smaller floorplans, with a variety of shapes and sizes that create functional spaces and provide options for the different ways people work—both individually and collaboratively.

Worksurface Support Legs

Why Active Components?

Open and light in scale, the Active Components product line is a set of inviting accessory and furniture elements that draws people in with a sense of improvisation and energy. Through integration with Haworth's product portfolio, Active Components helps improve efficiency in compact footprints with products that support user performance, posture changes, memory cues, collaboration, and focus work.

Worksurface Features

A range of worksurface shapes and sizes supports smaller footprints and accommodates collaboration.

- **Worksurfaces** – Available in a variety of rectangle, wedge, 90-degree, and 120-degree shapes—with or without knife edges—to accommodate just about any workspace footprint.
- **Worksurface Support** – Angles and soft edges of the support leg design suggest a more casual atmosphere and align with other Haworth product platforms.

Statement of Line

The Active Components product line includes upper and lower storage, Side Car worksurface/storage units, screens, worksurfaces, and legs that can all be integrated with other Haworth product lines.
