# Collaborate

Accessories

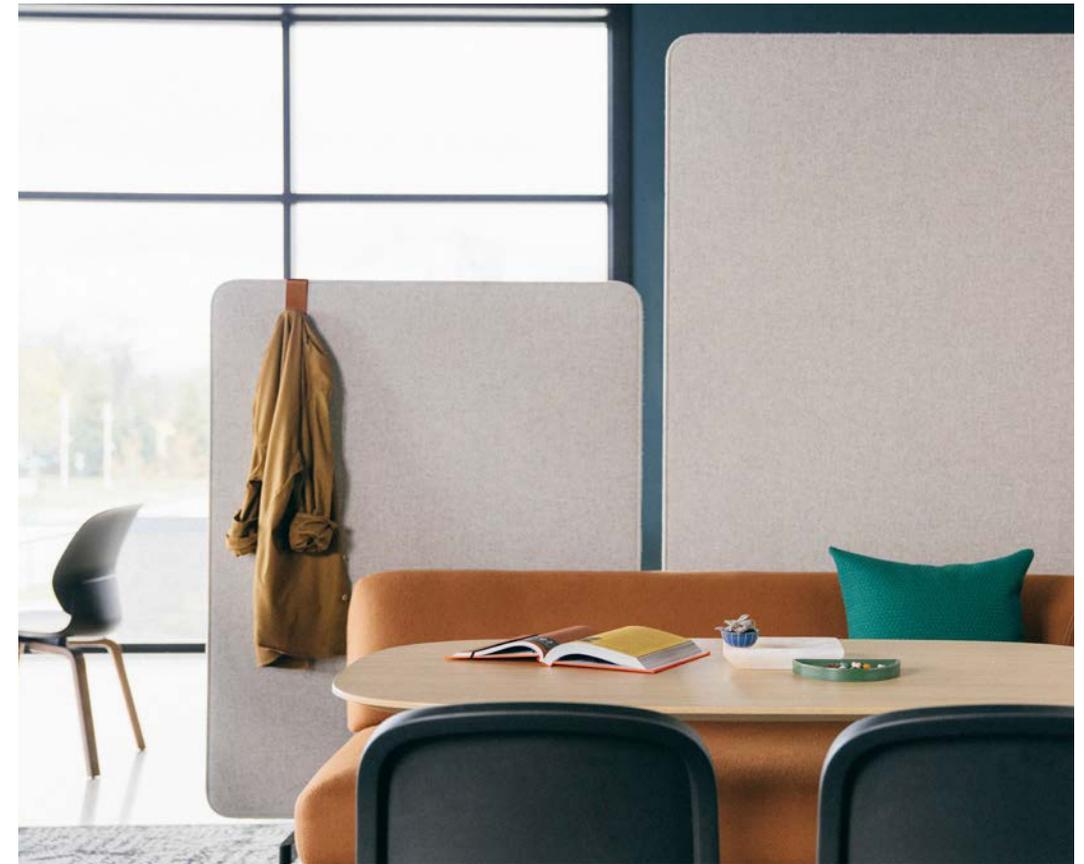

Regardless of an organization's culture, collaboration happens—both in planned gatherings and spontaneous interactions. Designing for collaboration helps create an environment where employees feel valued for their unique experience and input. Teams moves in sync—and faster—to reach organizational goals.

Collaborate® accessories support collaboration by empowering people to do their best work—no matter their workstyle. These adaptable, mobile tools accommodate a range of space types and sizes—and can be easily added or removed at any time to flex with changing business needs.

## Work the Way You Want

Collaborate accessories were created to work together but can be configured in a variety of ways to support people for different types of collaboration, socializing, and the broad range of activities that happen across the entire floorplate. Each piece's purpose is clear from its design, for easy navigation, legibility, and efficient use—empowering people to do their best work.

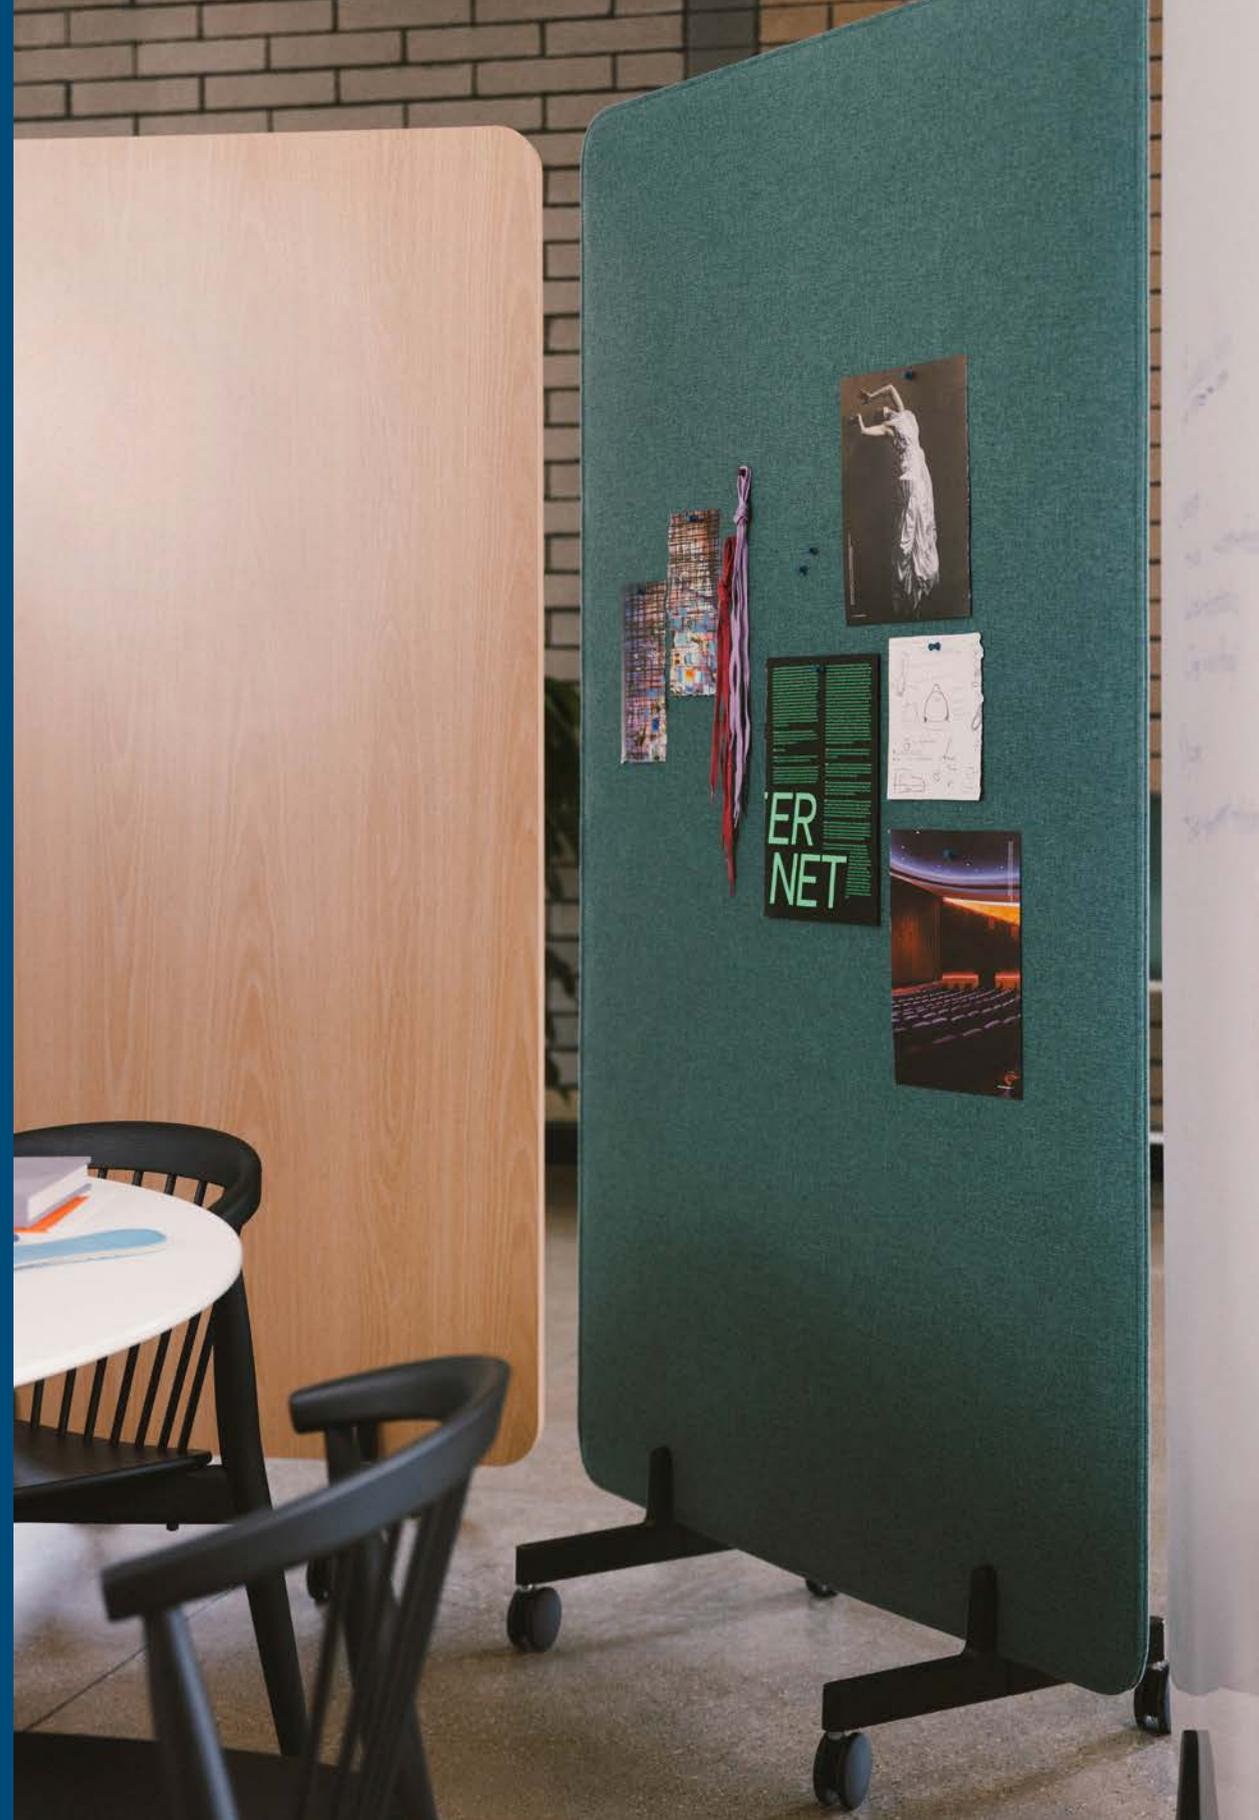

## Meeting Mobility

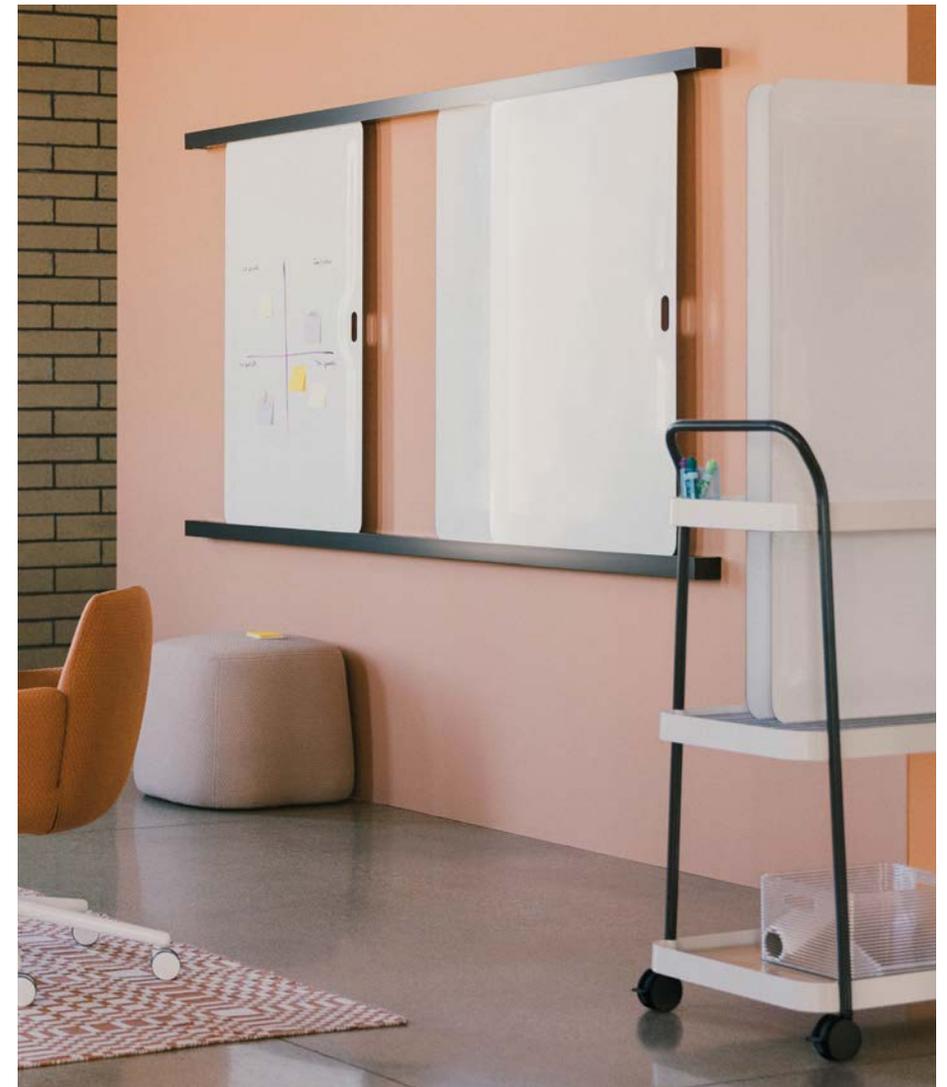

Collaborate supports the power of collaboration by enabling continuous process and information flow without disruption. Mobile tools help people move and interact. Carts and screens work with individual work systems and can be used in new or existing meeting spaces and ancillary settings.

### Haworth Design Studio

Our international team of designers collaborates with research and development partners to create multi-generational products and global platforms—with regional needs and preferences in mind.

## Design Choices

Collaborate accessories enhance collaborative activities through mobility and creating elevated spaces that draw people in. Each accessory is designed to support group workstyles in an open plan. Multi-use carts with a range of options bring collaborative tools and markerboards from space to space. Dual-purpose freestanding screens can divide spaces, provide privacy, and support collaboration—with 80 possible configurations, combining add-ons, monitor mounts, markerboard rails, materials, finishes and sizes.

## **Aligning People and Space for Optimal Performance**

Your people, organization, and facilities are at the center of everything we do. We help create spaces that solve for your business needs—resulting in effective people and efficient use of real estate.
