

INNOVATIVE MILITARY STORAGE SOLUTIONS

TO INCREASE READINESS, MAXIMIZE SECURITY, PREVENT
PROPERTY LOSS AND REDUCE YOUR FOOTPRINT

MILITARY SOLUTIONS

ARMY » AIR FORCE » MARINES » NAVY » NATIONAL GUARD » RESERVES

HOW WE SUPPORT YOUR MISSION

Military installations have all the storage needs of a small city – but are also responsible for an immense amount of gear, equipment, and weapons. It's key that all of this gear is not only stored efficiently in garrison, but also that it's ready and secure for rapid deployment.

Our full line of military storage solutions is designed to streamline your processes and make the most of your limited storage space in garrison. Then when it's time to deploy, many of our products can be packed directly into shipping containers to give your unit more time for what really matters.

INCREASE READINESS:

- » Fast Access to gear and supplies
- » Organization of equipment to find what you need when you need it
- » Streamline processes, ensure accountability, and make the most of limited storage space

PREVENT PROPERTY LOSS:

- » What % of your property losses are:
 - Lost gear of soldiers?
 - Supplies/Equipment unaccounted for?
- » If we could reduce your property loss by 90%, what dollar figure would you attach to that?
- » What would you do with the time gained by not investigating property loss?

MAXIMIZE SECURITY:

- » Improved asset accountability
- » Security of sensitive items
- » Protect stored items

REDUCE FOOTPRINT:

- » Maximize existing footprint
- » Space limitations / accommodating consolidations
- » Quick accessibility

READY AND SECURE STORAGE FOR:

- » Aircrew Flight Storage
- » Armory Storage
- » Command and Headquarters
- » Engineering Services
- » Military Police Storage
- » Supply / Logistics Storage
- » Judge Advocate
- » Special Forces / Special Ops
- » Maintenance Storage
- » Military / VA Hospital Storage
- » Mobility and Logistics Storage
- » Museum Storage
- » Units / Company Storage

WEAPONS & GEAR STORAGE

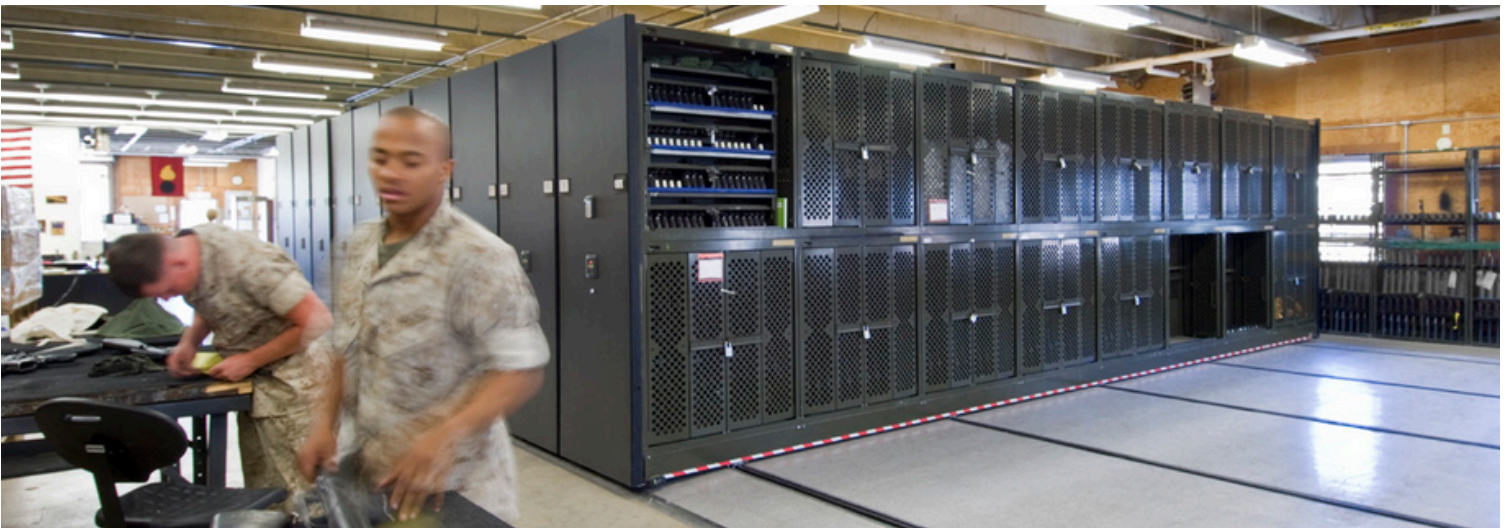

FROM GARRISON TO DEPLOYMENT

**INCREASE
READINESS**

**MAXIMIZE
SECURITY**

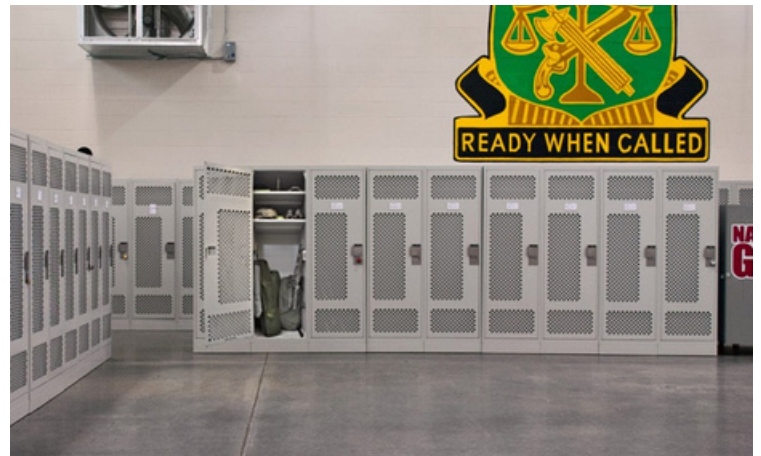

UNIVERSAL WEAPONS RACK

- » Designed and engineered with direction from Marine Corps, Army, and Air Force. Designed by soldiers – for soldiers
- » Adaptable to different functions
- » NSNs assigned to racks, kitted cabinets and components for ease of order
- » Over 185,000 units in field to date
- » The originator – not the imitator
- » Reconfigurable and adaptable as your needs and equipment change

LOCKERS ELIMINATE PROPERTY LOSS

- » Many states are providing a locker for every soldier
- » Soldiers have **ADEQUATE SPACE** within lockers to store all their gear, keeping it secure and **READY** at all times
- » Lockers are relocatable if needed
- » Locker configuration can change as gear and equipment changes
- » Charge and secure electronic assets in lockers

HIGH-DENSITY MOBILE SHELVING MAXIMIZING YOUR FOOTPRINT

REDUCE
FOOTPRINT

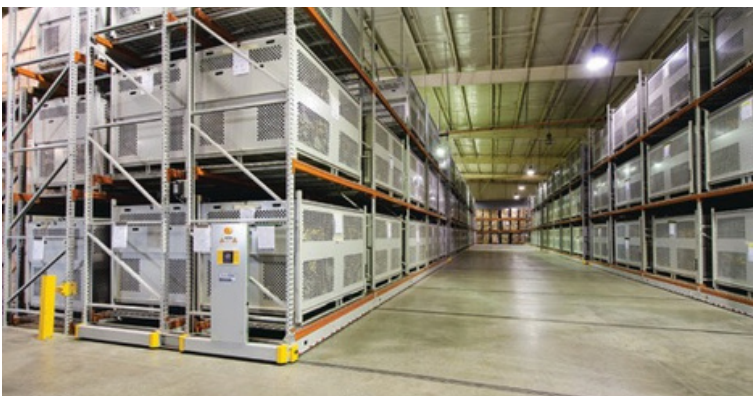

PREVENT
PROPERTY LOSS

INCREASE
READINESS

MAXIMIZE
SECURITY

HIGH-DENSITY MOBILE SHELVING

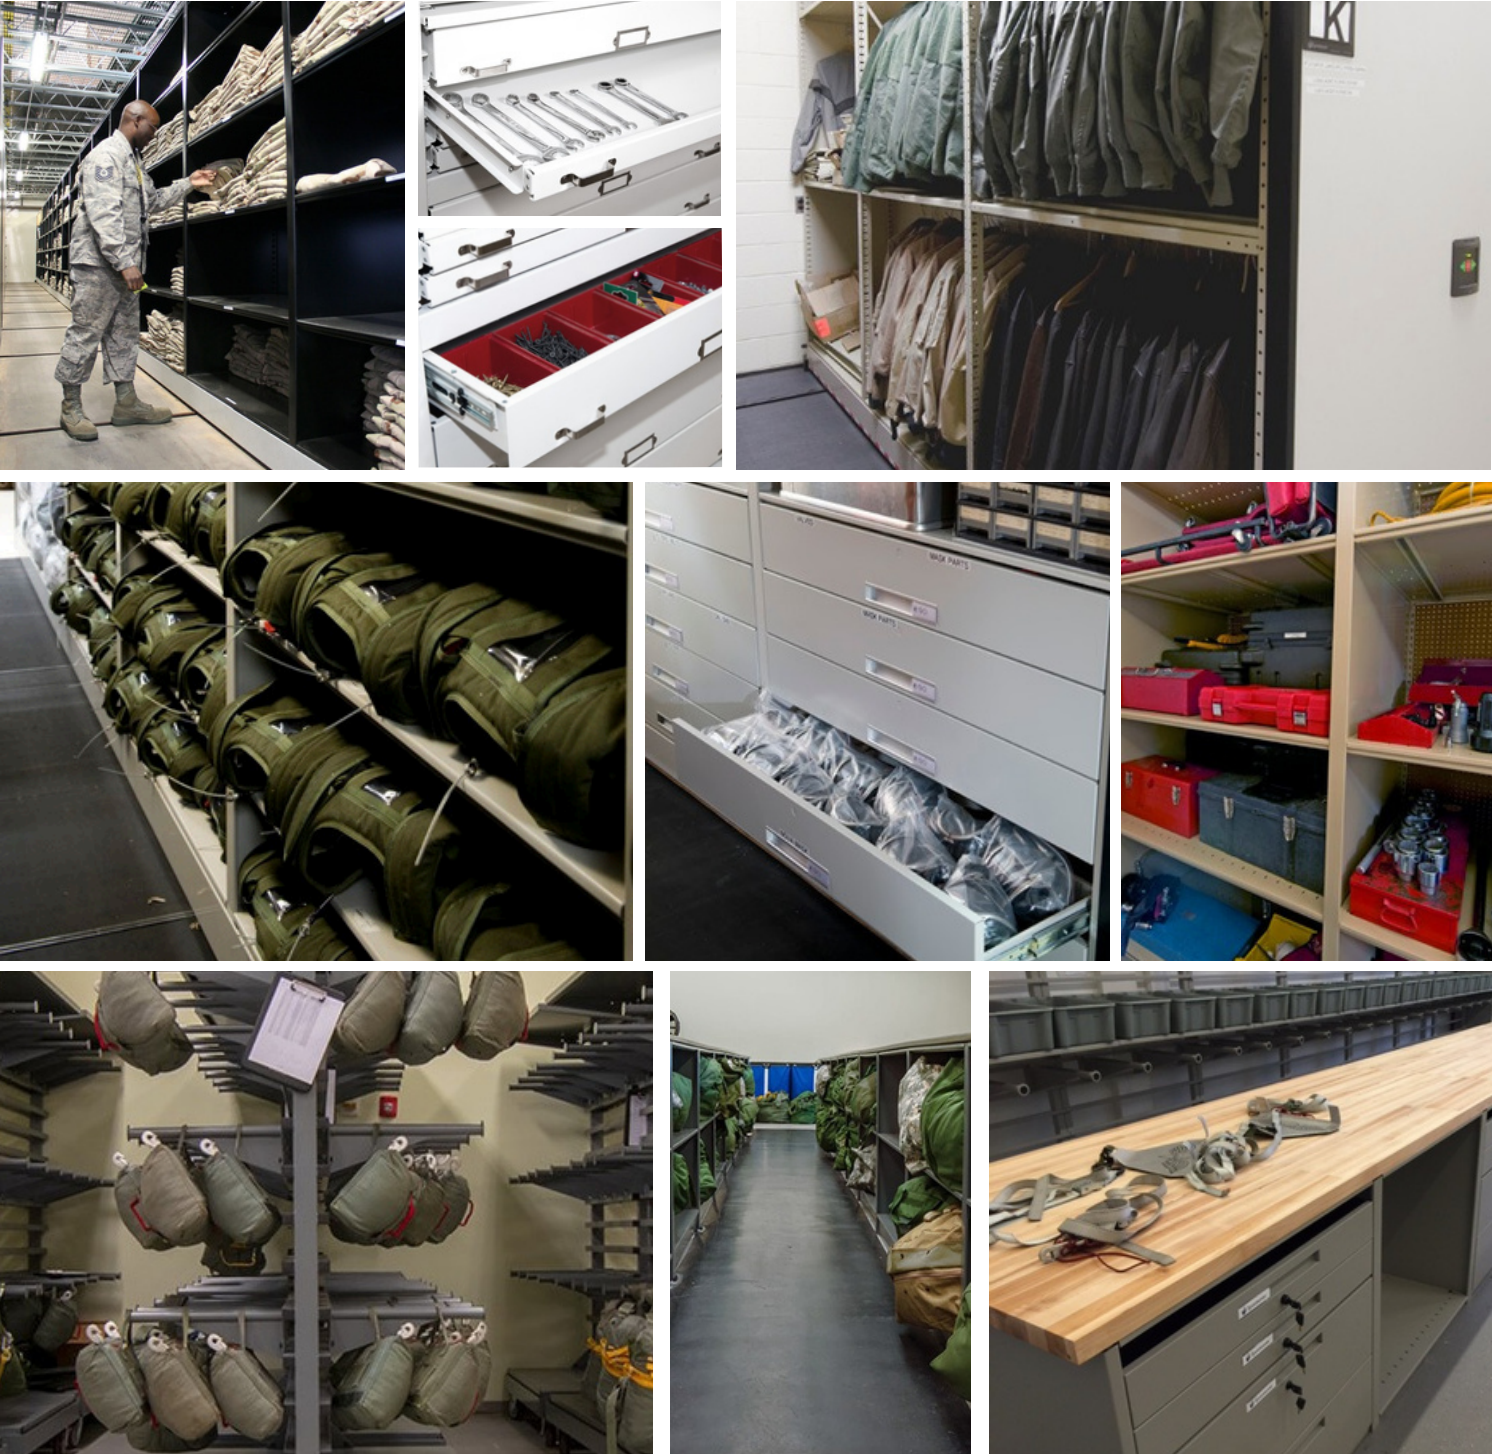

- » Double your storage capacity or store the same amount of items in half the footprint
- » Accommodates all types of shelving and cabinets
- » Sizes range from Low-Profile to Heavy-Duty to High-Bay
- » Mechanical-Assist Control
- » Accommodates 3,000-30,000 pounds per carriage section of shelving
- » Designed to work with existing racking, shelving or drawer systems
- » Soft stop, soft start function to protect equipment
- » Applications are endless. Ability to configure or reconfigure to store anything: uniforms, gear, parachutes, weapons, documents, equipment, and more.
- » Powered Control
- » Operates in temperatures down to -20F
- » Certain models can be installed on existing concrete slab without the need for leveling with a second concrete pour or adding structural footings

SHELVING

- » Styles to meet any need: Widespan, 4-Post, Cantilever, and Heavy-Duty Cantilever
- » Accessories like dividers, medium-duty drawers, and bins keep items organized

- » Sturdy construction for years of reliable use
- » Fully configurable on the fly, without special tools

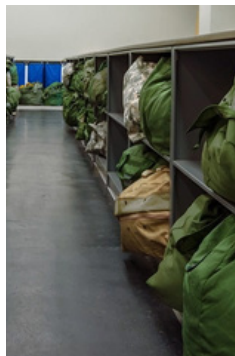

PARACHUTE RACK STORAGE SYSTEM

- » Outfitted to be installed on the floor, on a caster base for ultimate flexibility, or on a Spacesaver mobilized storage system
- » Adjustable cantilever arms accommodate different size bags for changing needs
- » Arms are infinitely adjustable horizontally and adjustable on 6" increments vertically
- » All materials used in the fabrication of the Parachute Rack are "non-reactive," which protects stored materials
- » All corners are rounded and all exposed edges are meticulously deburred to protect chutes from snagging or puncturing

PARARESCUE TRAINING AND GEAR STORAGE

- » Counter-height static or high-density mobile shelving to pack parachutes
- » Mobile carriages allow them to move toward the wall when not in use, opening up space for arriving containers
- » Drawers and cabinets store necessary tools and extra equipment to have at the ready

PARACHUTE STORAGE CONTAINER

- » Structurally welded reinforced base for fork lift access on all four sides
- » Top panels lift and pivot out of the way for full access to the interior
- » Available in two sizes: standard (up to 40 T-11 parachutes) and large (up to 64 T-11 parachutes)
- » Keeps chutes organized and ventilated
- » Modular and stackable up to 3 units high
- » Durable, user-friendly container can be used to store a variety of gear in addition to parachutes:
 - Chem Bio Protective Gear & Gas Masks
 - HAZMAT Suits
 - Decon Accessories
 - Fire Hoses & Extinguishers

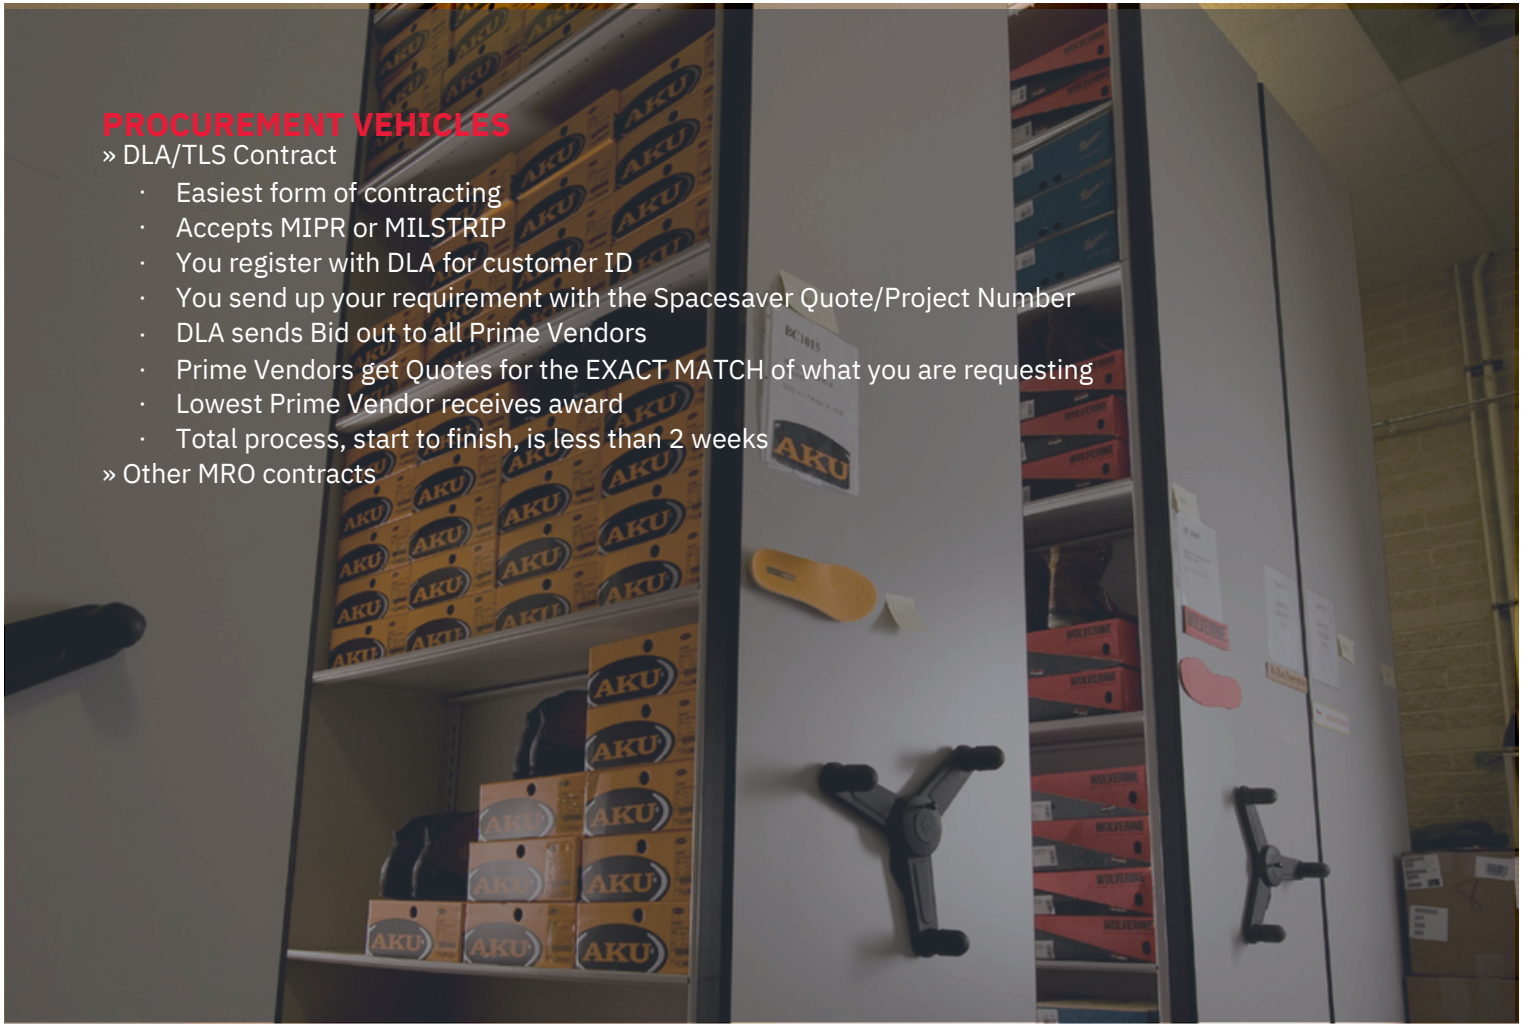

PROCUREMENT VEHICLES

» DLA/TLS Contract

- Easiest form of contracting
- Accepts MIPR or MILSTRIP
- You register with DLA for customer ID
- You send up your requirement with the Spacesaver Quote/Project Number
- DLA sends Bid out to all Prime Vendors
- Prime Vendors get Quotes for the EXACT MATCH of what you are requesting
- Lowest Prime Vendor receives award
- Total process, start to finish, is less than 2 weeks

» Other MRO contracts

READY AND SECURE

No matter what you need to store, you can count on Spacesaver for high-quality, USA-made storage solutions. We're committed to working side-by-side with you to streamline processes, ensure accountability, and make the most of your limited space. Best of all, you can rely on your nearby Spacesaver consultant explain your options and design a system that's a perfect fit for your requirements.

Get mission ready. Contact us today to schedule a free consultation.
