YOUR PARTNER IN COLLECTIONS CARE

For half a century, Spacesaver has helped protect and preserve some of the world's most interesting and important objects. Our comprehensive approach to collections storage includes everything from space planning assistance, to product design and manufacturing, to installation and long-term maintenance.

Our expertise, offered in partnership with your nearby Spacesaver distributorship, results in an unparalleled experience and exceptional collections care solutions.

We invite you to explore our products and get in touch to learn more.

OUR COMPREHENSIVE APPROACH

- Space Planning and Product Design
- Expert Craftsmanship
- Product Installation and Long-Term Maintenance
- Protecting and Preserving Collections

HIGH-DENSITY MOBILE STORAGE SYSTEMS

OPTIMIZING SPACE. PROTECTING COLLECTIONS.

HIGH-DENSITY MOBILE STORAGE SYSTEMS (COMPACTORS)

- The right system for your collections
- Double your capacity or store the same number of objects in half the space
- Accommodate all types of shelving, cabinets, and racks
- Reconfigure systems as collections change
- Protect against seismic events with anti-tip rails and bin fronts to prevent items from sliding off shelves

MECHANICAL-ASSIST STORAGE SYSTEMS

- Move thousands of pounds with minimal effort
- Prevent unexpected system movement with manual safety locks

POWERED SYSTEMS

- Protect objects from abrupt movement with soft stop, soft start function
- Keep users safe with patented safety systems
- Restrict access to culturally sensitive or particularly valuable objects with optional PIN feature
- Space aisles evenly for better ventilation or keep most frequently accessed aisle in open position
- Operate system remotely and help reduce high-touch surfaces with mobile app

SPACESAVER MUSEUM CABINETS

THE GOLD STANDARD FOR COLLECTIONS CARE

920 SERIES: PRESERVATION CABINET

- Reconfigure interior as collections change over time
- Stack, gang, or mount on mobile systems to accommodate growing collections
- Create a work surface with counter-height cabinets
- Add mobility with optional casters

BOTANY CABINETS

ENTOMOLOGY CABINETS

FLAT FILES

TRAYS AND DRAWERS

OVERSIZED TRAYS AND DRAWERS

MUSEUM SHELVING

THE PERFECT PLATFORM

SHELVING

- Choose from standard or custom sizes and styles
- Add optional lockable doors, drawers and trays, and pull-out reference shelves
- Reconfigure without special tools to optimize space as collections change

NANTUCKET DRAWERS AND TRAYS ON 4-POST SHELVING

- Value-engineered alternative to museum cabinets for collections that don't need a sealed interior environment
- Optimize vertical space
- Endless sizes offer limitless configurations and design possibilities.
- Museum-quality drawers and trays integrate with other 4-Post shelving accessories
- Trays are fully removable by disengaging safety stop
- Reconfigure and add accessories as your needs change
- Add optional locking doors for security

EXTRA-WIDE TRAYS ON RAPTORRACT™ WIDESPAN SHELVING

ART ON HIGH-BAY SHELVING

COMPLETE SOLUTIONS

PROVIDER

ART RACKS

- Compactly store framed art and other hanging objects.

TEXTILE RACKS

- Prevent damage from creases and folds
- Reconfigure racks without special tools
- Mount on stationary bases, casters, or high-density mobile systems

HIGH-BAY

- Consolidate collections
- Take full advantage of vertical space
