

INTELLECT WAVE[®]

Collection

GRADING COMFORT ON A CURVE

Intellect Wave combines student comfort, product durability and a clean aesthetic to promote active learning from the smallest to the tallest. Comprehensive seating and desking choices deliver design continuity while ensuring versatility in function and performance.

The unique curved design of Intellect Wave enhances ergonomic comfort and supports superior functionality. Its passive flexing back promotes movement that leads to better attentiveness and learning retention. Curved worksurfaces add comfort with increased belly room. Curved cantilever desk design eases ingress/egress, which results in reduced footprints and greater classroom density.

RIDE THE WAVE OF COLLABORATION

Bring learners together for collaborative group work or keep them focused on individual learning with versatile spaces that transition with ease. Intellect Wave desking shapes and seating styles support various learning and teaching styles as they configure and reconfigure with ease.

Adaptive seat shape lets learners sit backwards, sideways or any way they wish.

DURABILITY THAT PASSES EVERY TEST

Rugged Intellect Wave furniture withstands years of tough classroom use. It exceeds industry standards for durability and provides years of low-maintenance performance and cleanability. Elliptical tubing on seating and desks provides superior frame strength and endurance. Proven product longevity along with recyclable content and a domestic supply chain make Intellect Wave a smart, sustainable choice.

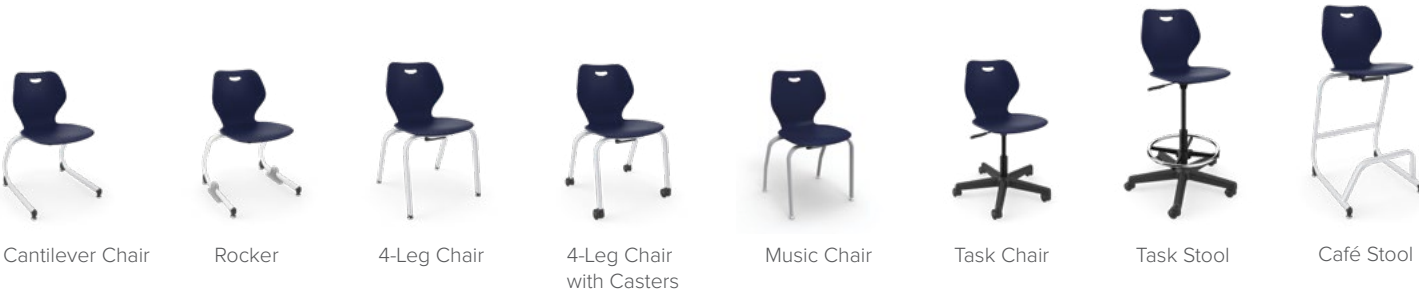

STATEMENT OF LINE

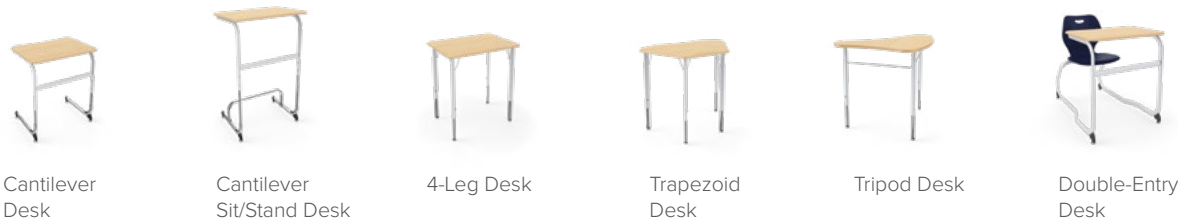

Intellect Wave classroom furniture includes seating and desking in a wide variety of styles and sizes and a vast array of color options. Seating is available in all poly or with upholstered seat. Task chair and task stool are available with arms. Large cantilever and 4-leg chairs have a wire book rack accessory and a chair dolly for ease of moving and storing. On a dolly, 4-leg chairs stack 10 high, music chairs stack 5 high and cantilever chairs stack 7 high. On the floor, all chair styles stack from 3 to 8 high. Desking is offered in fixed and adjustable heights with laminate or hard plastic worksurfaces. Desking accessories include plastic book box, wire book basket, or chrome book bag hook. Intellect Wave seat shells are also available on Learn2 seating and KI fixed seating. ADA desking options are available.

REFINED AESTHETICS

Contoured and architectural in design, LimeLite offers upscale, universal appeal.

Its slim profile elevates aesthetics in any environment.

Refined fit and finish details add quality and sophistication.

RESPONSIVE COMFORT

LimeLite seating features a unique architectural shell design and a specific blend of materials that provide inherent passive flex and contoured comfort. The original LimeLite shell provides six degrees of passive flex, while the conference chair seating with enhanced motion, pictured here, provides 13-degrees of articulation for even more comfort and a longer-term sit.

COHESIVE CONSISTENCY

The all-encompassing LimeLite seating family provides a cohesive and consistent design for varied applications.

ENDURING ALLURE

By combining beauty and durability, LimeLite offers enduring allure. It is tested to exceed BIFMA standards, has a weight rating of 400 pounds and maintains a lifetime warranty.

PillarTM Tables

simple tables for every space

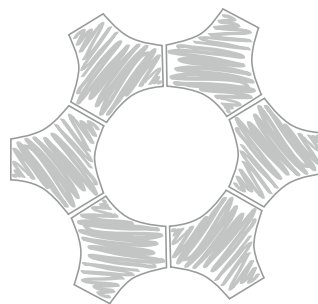

Furnishing Knowledge®

EVERY ENVIRONMENT
SUPPORTED

Simple. Straightforward. Pillar tables bring people together in every space. Pillar provides a place to gather, an area to create or a spot to focus.

Sprocket top shape shown above

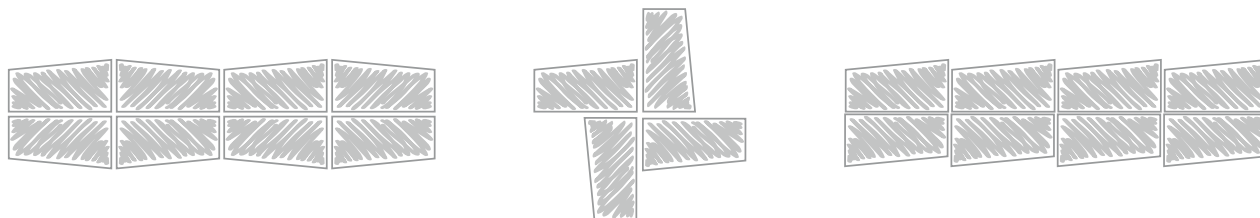

VARIOUS SHAPES, SIZES AND HEIGHTS
SIMPLIFIED

Pillar is defined by clean lines, a simple leg and a multitude of configurable top shapes. Combine tables to create a serpentine touchdown space; Round and Square shapes encourage collaboration in café and third spaces.

LEARNING SPACES *STRENGTHENED*

Pillar empowers learners to take an active role in their education. From elementary classrooms or corporate training rooms, users can arrange their tables into endless configurations for that “just right” learning environment. Diamond and Reduction shapes combine for a variety of configurations or separate into single tables for more privacy.

Reduction top shape shown above

WHY PILLAR?

The post leg is the signifying feature behind Pillar; a foundational column that embodies support, simplicity and strength. Pillar combines simple posts and distinctive shapes, creating countless impactful environments.

PIROUETTE®

Tables

REFRESHED SPACES

Pirouette is a comprehensive table line that offers a variety of worksurface shapes, base styles and heights to help create cohesive and adaptive spaces. Fixed- and adjustable-height bases can be specified with fixed or nesting worksurfaces. The unique design accommodates two-sided usage, giving ample leg room to those seated on either side of a table. Nine top shapes support a variety of environments from classrooms and training spaces to innovation centers and cafés.

NESTING REDEFINED

Pirouette nesting tables support quick reconfiguration – the pull of a single lever flips the worksurface vertical while the innovative angled legs create straight-line nesting for compact storage. Nesting is compatible between fixed- and adjustable-height bases for added specifier freedom. Height-adjustable nesting tables can nest at any height. Flip, nest, move, reconfigure or store to accommodate the needs of any space on demand.

HIGH ACHIEVERS

Height-adjustable tables are available with fixed or nesting worksurfaces in rectangle or chevron shapes for maximum flexibility in a sit-to-stand height range. The pneumatic height-adjustable base supports quick adjustments and changing needs. The set screw height-adjustable base is perfect for structured settings such as tiered classrooms or training rooms.

POWERING COLLABORATION

Pirouette also offers a collaborative base style that features inset legs, allowing seating on all four sides of a rectangular table.

Pirouette tables can be specified with single circuit power, integrated above or below the surface, to support ongoing use of electronic devices during meetings, training sessions or anywhere else a charge is needed.

Straight line nesting

Universal Screen

In-surface power module

PIROUETTE STATEMENT OF LINE

Pirouette is a comprehensive table line offering models that support fixed and height-adjustable solutions, provide mobile nesting for compact storage, and include worksurface shapes and sizes to suit any environment.

RUCKUS[®]

Collection

SHAKE UP THE LEARNING SPACE

It's a revolution of thought and action. It looks like nothing else. It can be used like nothing else. It's Ruckus: a simple, inspiring, and incredibly innovative collection that supports today's learning space transformation like nothing else.

The comprehensive collection encourages student engagement, adapts to people and places, and supports hands-on learning. With Ruckus, users can choose how they sit, learn, and interact, which ultimately enhances learning and performance outcomes.

SUPPORT INTERACTION AND IDEATION

Ruckus energizes students and instructors alike with elements and accessories that enhance engagement. Jot down ideas, collaborate on revisions, and present to a larger group. The collection empowers variety in learning styles and offers teachers the freedom to teach as they prefer.

ADAPT TO PEOPLE AND PLACES

Ruckus creates adaptable learning spaces that transition with ease. Respond to change instantly by easily reconfiguring Ruckus elements to support group interaction or individual focused work. The responsive design includes infinite non-directional sitting positions, mobility, and height adjustability.

STRENGTHEN HANDS-ON LEARNING

Experiential and active learning environments enable students to explore, connect, and create. Ruckus offers numerous worksurface and storage options to bring hands-on learning to new levels in makerspaces, fab labs, science labs, art studios, woodworking shops, and more.

STATEMENT OF LINE

Ruckus includes innovative 360-degree seating, stacking desks, responsive and configurable desks and tables in numerous shapes and sizes, super-functional storage, and “show-and-tell” whiteboards. All elements are available in dozens of poly, paint, laminate, edge, and upholstery colors. Together these elements create flexible, adaptable, organized learning environments.

STRIVE[®]
Seating

SIMPLY VERSATILE

Strive's simple, elegant design adapts to anyone in any space. It presents a clean aesthetic that extends through a comprehensive seating line. Strive provides a consistent look in a variety of interiors and blends with any architectural style.

SIMPLY COMFORTABLE

Strive combines a slatted flex back and contoured curves to encourage movement, relaxation and enhanced circulation for longer sit times, better health and increased productivity.

SIMPLY RESOURCEFUL

Strive redefines value by using readily available, recyclable materials and a small number of components to create a simply ingenious design. Its durability is proven. An accredited test lab flexed the Strive back one million times—that's eight times the BIFMA standard.

SIMPLY ADAPTABLE

From playful to sophisticated, Strive delivers an unrivaled array of color and material options that support any design intent. Its clean, contemporary style presents a coherent design throughout the collection. You get the same shape, the same comfort, the same colors.
