Acoustic Pod

HushMeet is a collaborative, four-person work pod that creates an independent space for meetings and teamwork in the office. Acoustic properties provide speech level reduction to ensure the privacy of conversations inside and minimize noise from outside. With its freestanding design and integrated casters, hushMeet fits quickly and seamlessly into open-plan environments—without construction—and can be relocated when needed.

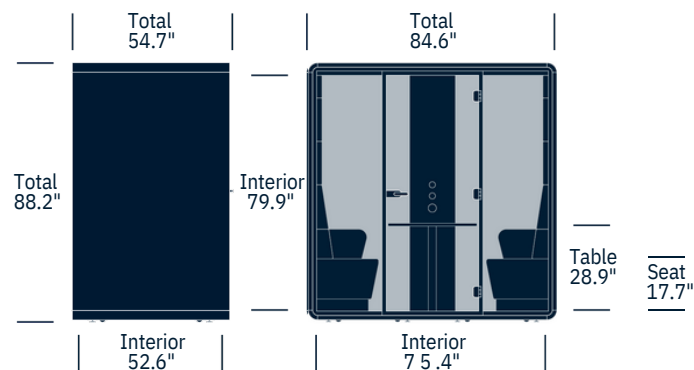

Features

- Acoustic design with:
 - Exterior constructed of 1.5", 3-layer honeycomb board with thermally fused laminate (TFL) finish and zero-joint laser edge technology
 - Laminated 0.19"-thick acoustic safety glass panels and door with an acoustic seal
 - Interior LDF (HDF) 0.11"-thick panels, covered in polyurethane foam and upholstered
 - Commercial-grade carpeted floor
- Presence-activated ventilation and LED lighting system runs only when pod is in use
- Easy-to-use knobs adjust fan speed and the brightness of ceiling light
- Power modules with outlet and ports for USB-A, USB-C, and ethernet
- Upholstered padded seats, backrests, and armrests
- Laminate or TFL-finished worksurface

Certifications

- Meets IBC Requirements for Seismic Design of Nonstructural Components and Systems
