HushPhone   
hushoffice

Acoustic Pod

HushPhone is a single-occupancy pod designed for short phone calls and video conferences. A fold-away shelf creates a laptop surface, while a fixed shelf offers temporary storage for small items or functions as an armrest. Acoustic properties provide speech level reduction to ensure the privacy of conversations inside and minimize noise from outside. With its small footprint, freestanding design, and integrated casters, hushPhone fits quickly and seamlessly into any open-plan environment—without construction—and can be moved or turned when needed.

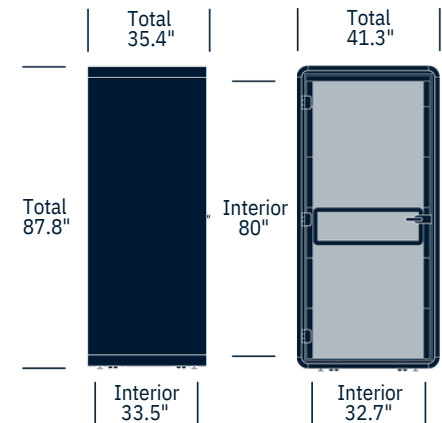

#### **Features**

- Acoustic design with:
  - Exterior constructed of 1.5", 3-layer honeycomb board with thermally fused laminate (TFL) finish and zero-joint laser edge technology
  - Laminated 0.19"-thick acoustic safety glass panels and door with an acoustic seal
  - Interior LDF (HDF) 0.11"-thick panels, covered in polyurethane foam and upholstered
  - Commercial-grade carpeted floor
- Motion-activated ventilation and LED lighting system runs only when pod is in use
- Fixed-mount shelf provides a spot for small items or serves as an armrest
- Fold-down shelf creates a laptop table or small worksurface
- Optional floor-mounted stool has a height-adjustable range of 25"–35"

#### **Certifications**

- Meets IBC Requirements for Seismic Design of Nonstructural Components and Systems
- UL Listed

Specifications

Speech Level Reduction:	24.7 decibels
Ceiling Light Bulb Type:	LED
Ceiling Light Power:	3.2 watts
Ceiling Light Output:	147 lumens
Ceiling Light Color:	
Temperature:	3,000K
Power Module Outlets:	110-volt power, USB-A, USB-C
Max. Power Consumption:	7 watts
Air Ventilation	
Exchange Rate:	4,238 ft. <sup>3</sup> /hr. per fan (2 fans)
